

AI Code Review Report

Review #1 | Submission #1

Review Overview

Review ID:	1
Submission ID:	1
Overall Score:	82/100
Security Score:	78/100
Performance Score:	84/100
Maintainability Score:	80/100
Readability Score:	86/100

Summary

Mock AI review: the code is generally readable, but it would benefit from stronger input validation, clearer function boundaries, and small performance-minded cleanups.

Review Comments

Comment #1

Line: 1

Severity: MEDIUM

Category: security

Validate external input before using it in business logic.

Comment #2

Line: 3

Severity: LOW

Category: readability

Consider using clearer variable names to make the intent easier to follow.

Comment #3

Line: 6

Severity: MEDIUM

Category: maintainability

Split complex logic into smaller functions so each unit has one responsibility.

AI Code Review Report

Comment #4

Line: 10

Severity: LOW

Category: performance

Avoid repeated work inside loops when values can be calculated once beforehand.
